

Green Dot RFP Answers (Round 2)

2019-2020

1. We cannot access the link for the current contract.
 - a. **Here is the URL: https://drive.google.com/open?id=1G-h1U0TV-C2U8IVtNL_JCfn8YPNr_8QT**

2. We see your bus count is now showing 18 routes. Does this mean by next year, there would only be 16 routes depending on if the contractor does the Animo Florence-Firestone temporary routes?
 - a. **Yes, that is correct.**

3. The route times listed are 15 minutes to 2 hours max. Route times are absolutely critical. We must have clarity if these are full day or one way or why these are so low?
 - a. **The times provided for the routes are for the length of one way. Each bus does a return trip that is approximately equal in time to the first trip. The routes shown as 2 hours are door-to-door routes where the buses pick up each student from their respective home. The routes that show 15-20 minutes are for the buses that take students from one hub stop, to the school.**

4. 10 routes show 50 students per route – is this based on actual ridership or students assigned per route?
 - a. **It is based on students assigned per route, however, the ridership count remains close to the assigned count on a daily basis.**
