

Vendor Questions and Green Dot Answers for Category 2 RFP (Bid #20-TN02)

Updated 12/6/2019

Questions

1. **The RFP has 2 additional lines that are not listed on your form 470. Is that correct, you want these 2 additional lines included with the quote? R3J16ACM qty 60 and R3J19ACM qty 11**

Answer: Yes, please include R3J16ACM qty 60 and R3J19ACM qty 11

2. **Please confirm that you want the quantities shown on the RFP quoted even though they do not match your Form 470.**

Answer: The quantities on the RFP are correct. System limitations in E-rate's EPC system require us to post the WAP licenses as both IC – with 71 units and BMIC as 71 units because Aruba includes both types of features in the license. Mounting brackets are considered ancillary to the installation and are not requested on the 470.

Make	Model	Description	RFP Quantity	470 Quantity
Cisco	WS-C3850-48XS-E	Layer 3 Aggregation Core Switch	0	0
Cisco	SFP-10G-SR	10G MM SFP	16	16
